

## PROJECT STATUS REPORT

**Project Name** Bob The Builder

**For Week Ending** 22nd March 2024

**Project Status** Yellow

**Status Description** It's yellow as we still have some features and design decisions to iron out. It will be a Green when we finalize the UI and the features.

### Activities—During the Past Week

**Bhargav Taraviya** - Worked on the implementation of home, contact us, login and registration pages and scraping data for research papers

**Muhammad Israr Khan** - Worked on the design and implementation of our Activities page

**Nihal Sekhar** - Worked on the design and implementation of our Build a network page

**Poojan Patel** - Worked on the implementation of Member profile page and Groups

### Activities—Planned for Next Week

**Bhargav Taraviya** - Improve the design and functionality as a whole in our website like finding attractive themes and plugins

**Muhammad Israr Khan** - Improve the design and functionality of our Activities page

**Nihal Sekhar** - Improve the design and functionality of our Build a network page

**Poojan Patel** - Improve the design and functionality as a whole in our website like finding attractive themes and plugins

### Project Issues

1. Scraping data from CEEA proved to be a difficult task for us the past week. We found out that we have to run python scripts and link that to our WordPress website. This was time consuming and challenging for us so we dropped the idea for now.

### Project Changes

1. We changed our theme yet again and this time we are using BuddyPress.
