

1. Replace our “UofR group” to any research interests so that it aligns with the customers requirements or can make it as 2024 CEEA Workshops where people participate.
2. Maybe change the terminology from “friends” to something more professional like “connection” or “follow”.
3. The Build a network and Activities pages are the USP of this website so we must make the page more attractive and retain the users in our website. Find some additional interesting functionality and plugin for these pages. Customers should be able to navigate to the member’s profile that they click from the map in the home screen.
4. Give the home page a bit of restructuring.
5. Bilingual features are a must have.
