

1. Spell check the information put out on the website thoroughly.
2. Move the “find us” section in the home page to the top.
3. Move the “build network” section just below the “find us” section in the home page.
4. Don't focus too much on the events section and or page at the moment.
5. Don't focus on the research paper section as data scraping might not be feasible.
6. Find better innovative and interactive plugins for the website.
7. Get actual pictures if at all we are providing it and do not use placeholder information or pictures anywhere on the website.
8. Since there are no social media links provided by the customers, do not showcase that feature anywhere in the website.
