PROJECT STATUS REPORT

Project Name	Bob The Builder
For Week Ending	5th April 2024
Project Status	Yellow
Status Description	It's a yellow because we are still yet to finalize on the look and feel of the website. It would be green when we fully design the look and feel of the website.

Activities—During the Past Week

Bhargav Taraviya - Worked on improving the look and feel of the website

Muhammad Israr Khan - Worked on the design and implementation of our Activities page

Nihal Sekhar - Worked on the design and implementation of our Build a network page

Poojan Patel - Worked on improving the look and feel of the website

Activities—Planned for Next Week

Bhargav Taraviya - Reshaping the home page according to the feedback and look into the Bilingual functionality

Muhammad Israr Khan - Improve and rename the functionality of "Groups" to "2024 CEEA workshops"

Nihal Sekhar - Improve the functionality of the map in the home screen

Poojan Patel - Improve the design to include research interest and change the term "Friends" to "Connections"

Project Issues

1. Scraping data from CEEA proved to be a difficult task for us the past week. We found out that we have to run python scripts and link that to our WordPress website. This was time consuming and challenging for us so we dropped the idea for now.

Project Changes

1. Bilingual feature proved to be a bit of a challenge in finding the right plugins.
